

Key Machine

# 044 HD

Lever Operated Duplicator

**PERFORMANCE**  
*Series*

The 044 HD is fast, accurate and designed for years of use! Once keys are loaded, simply release the carriage mechanism and with one easy flip of the operating lever, an accurate duplicate is made.

It's that easy!

The  to your success

# 044 HD Lever Operated Duplicator

The 044 HD Performance Series Key Duplicator is particularly useful when multiple duplicates of a key are needed. Features of the model include the Super Jaw 3, four-position vise jaws to provide superior key "grip" on virtually any standard cylinder key. The semi-automatic design allows the operator to duplicate with speed and accuracy. Function, combined with attractive styling, makes the 044 HD an excellent choice for standard key duplication.

- **Super Jaw 3, "secure grip", four-position vise jaws; securely clamps most residential, padlock or automotive keys without the need for adapters, including double-sided types.**
- **Permanently lubricated cutter spindle shaft ball bearings rather than bushings; bearings are usually found on more expensive models.**
- **Hardened carriage shaft and cutter spindle provide extended service life**
- **Fast spindle speed provides smoother cuts**
- **Titanium coated P-CU20 milling cutter; made from quality, hardened tool steel**
- **Wide spacing between vise jaws, accommodates longer key types.**
- **Dial type depth adjustment system greatly simplifies calibration and improves accuracy.**
- **Ideal for mobile use, efficient 1/4 hp motor will operate with most inverters and generators that supply 500 watts (continuous) or higher output (115 VAC)**
- **Special device guards against cutter contact with vise jaws.**
- **Circuit breaker protected.**

## Specifications:

**Motor:** 110V standard; also 220V; all ¼ HP, 1725 rpm

**Vise Jaws:** Super Jaw 3, four position

**Brush:** 814-00-51

**Cutter:** P-CU20 milling cutter, flat left side

**Dimensions:** 14½"W x 16"D x 10"H  
(32cm x 35cm x 25cm)

**Weight:** 28.3 lbs. (12.84 kg)
